

7.2 BEST PRACTICE of ACADEMIC YEAR 2019-2020

1. Objectives of Mobile Ban in our College

First and foremost, mobiles are dangerous for the health of students as it emits radio frequency micro wave radiation which is a reason for many health and mental issues. Even it effects a student's mental growth and development.

Mobiles are a big hurdle while studying in college. Students easily get distracted through social media even some students get addicted to texting which creates behavioral problems. Study is neglected because of mobile students indulge in unwanted communication.

Students are distracted during the lectures so we can say that mobiles reduce productivity of students. Because of mobiles students not only neglect studies but also physical activities that is why different physical problems are created among students.

During exams students use mobile as an instrument of mall practice mobiles games are also very popular among students which is a sheer waste of time.

Taking all these points in consideration our principal Dr. Maqdoom Farooqui decided to ban mobiles in our college on feb 1st 2020. Notices were distributed among students and teachers and the staff members orally convinced our students not to use mobiles in college campus to improve the concentration on studies.

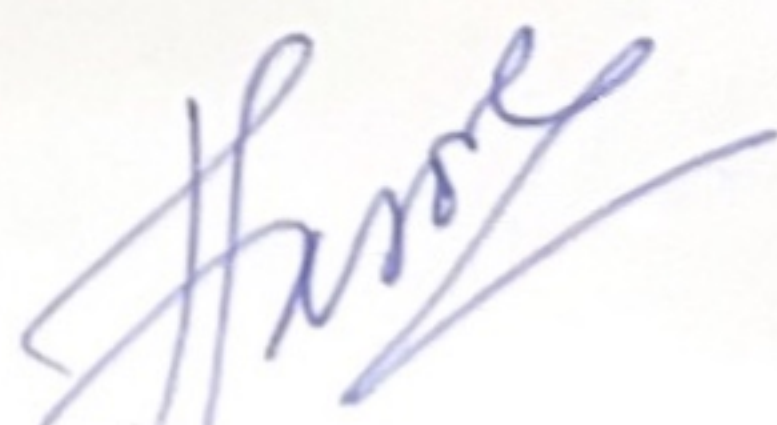

2. Visits to Orphanage homes

Dr. Rafiq Zakaria College for women has been very much interested in social work. Different activities under taken by students and teachers of this college. There are certain orphanage homes for girls in Aurangabad Maryam lilbanat is one such orphanages at Beed bypass road and the other one is Fatema orphanage at Sayeeda colony.

Our teachers and students (20 girls) visited Maryam lilbanat two times Fahmeeda Farooqui (Home Science Dept) donated a sewing Machine for the girls. And on the second occasion fruits and eatables were distributed among the girls of orphanage.
