### 2.3.2 – Students mentoring system available in the institution? Give details. (maximum 500 words)

Teaching learning process as a part of sound education system Institution follow mentor-mentee process for the better evaluation and progress of the students. Mentoring system is student -centric. Mentoring system has been introduced to develop a better and effective relationship of students and teacher to guide the students in their academic as well as personal matter. The role of the mentor is to nurture the students and guide them for any issues they are coming across. Special bonding is made to solve the problems of students. Each mentor is given list of the mentees. Total 10 to 15 students / mentee are allotted for each mentor. Class wise distribution is done according to their related faculty. Mentor has the students as mentee of all three years. Mentor has a responsibility to look after the regularity, punctuality, and discipline of the mentee. Activities of each mentee is observed by their mentor. The mentors meet the students associated with them once in every week. A separate mentoring and counselling hour is maintained for each class as part of their time table and the respective faculty meets the students in the said hour. Problems of mentee are discussed by their mentor. If a student is absent for more than 10 days continuously then mentor calls the parent of a student, enquires the reason and advises them. Action is taken by the mentor to solve the problems of the mentee, sometime guidance and help is taken from the principal. Mentors look after activities of mentee such as exams, results, co-curricular involvement. Time to time update is taken by the college senior member. Principal conducts meeting with the mentor to take review about the activities done by mentee. Record of each mentee is been kept with the mentors to give update to parent about their children. Healthy relations are kept between both mentor and mentee. Mentors communicate with their colleagues and promote mentees at the time of difficulty provide them opportunities and develop them further in their areas of interest. Telephonic discussion with parents about the children for the upliftment of the mentee. The main objective of the mentoring system is to:

1. To monitor the student's regularity and discipline.
2. To enable the parents to know about the performance and regularity of the children. Student teacher relationship improvement. Counselling student for solving their problems and providing confidence to improve their quality of life.
3. To identify and understand status of slow learners and encourage advanced learners.
4. Identification of slow learners for conducting Remedial classes. Advanced learners identified and encouraged with prizes.
5. Guiding student to choose right career path for jobs, higher studies, entrepreneurship.

Outcomes of the system: The student's attendance percentage has increased to greater extent. There is a quiet improvement in teacher student relationship due to the direct communication between mentor and the mentee. Mentoring system has helped in creation of a better environment in college and bridge the gap between the teachers and students. Also, it has motivated the students

#### 2.5.2 – Reforms initiated on Continuous Internal Evaluation(CIE) system at the institutional level (250 words)

The Institute is affiliated to Dr. Babasaheb Ambedkar Marathwada University Aurangabad, and follows the Examination pattern of the university. Dr. BAMU University guidelines are strictly adhered with respect to evaluation process. This evaluative mechanism is geared towards preparing students for their final examinations conducted by the affiliating university, and also for their overall enrichment. Keeping in view the need for continuous assessment of the students, the college initiated the following measures: The Actual Practice (Types of evaluation):

- Ability test (Selection test) is taken for evaluation after admission to assess the level of understanding and proficiency of the students. Performance of the students in ability test is used by Faculties to identify slow and advanced learners in their respective subjects. Slow Learners are encouraged to improve their performance in future by counseling. Counseling Sessions are used to sort out the personal issues, academic and non-academic problems.
- Special classes are held after the Ability Tests to help the students prepare better for their upcoming university examinations.
- Remedial classes are held for slow learners.
- Departmental periodic class tests and tutorials are taken. (Tutorials as part of which students have to write question answers based on term syllabus).
- The corrected test answer papers of the students are distributed to them for the verification by the students and any grievance is redressed immediately.
- The marks obtained by the students in internal assessment tests are filed up periodically and kept in the department along with their attendance.
- Periodic Seminars, Group discussions were arranged per semester.
- Each student is encouraged to give seminars in the class.
- More assignments are given for practice.
- The students will be informed about the mistakes committed and guided to improve their performance in term end examinations.

Practical Examinations: Day to day performance of the students is assessed for every experiment which includes regularity, performance, viva and the promptness in submitting the record. For lab courses, the marks/grade scored by the student for each experiment is indicated in the observation/record. The independent learning, practical approach to the real-time applications is tested by viva voce for laboratory courses. Practical Examination has to be carried out within the stipulated time. Attendance of the students for the practical examination is monitored. The end examination for the laboratory and projects shall be conducted with internal and external examiner appointed from the other colleges as decided by the University. After completion of the practical examination, the faculty evaluates the answer scripts. The faculty submits the marks to the examination branch and marks are uploaded on university web portal. Term end exam: The college constituted an examination committee to ensure effective implementation of all activities related to external examinations and assessments. Through continuous monitoring and evaluation of students on campus, the college identifies students requiring special attention and offers necessary measures and by mentor teachers. At the end of each term, the final assessment is done through term-end university examination. Result Analysis:

- The results are compiled by the

#### 2.5.3 – Academic calendar prepared and adhered for conduct of Examination and other related matters (250 words)

Since our college is affiliated to Dr. Babasaheb Ambedkar University, Aurangabad, the academic calendar is prepared and notified by the University at the beginning of the academic session and our college strictly adheres to the same. In-keeping with the academic calendar prepared by the university, our college authority also prepares an academic calendar for the college by incorporating few modifications as per necessity. This academic calendar comprises of the dates of commencement of classes and examinations viz. the semester wise schedule for courses of the college, schedule of the college internal assessments, tentative schedule of university examinations etc.

Holidays and other activities and celebrations/observances by the college are also included in the academic calendar. This includes admission, registration, teaching schedules, winter summer vacation. Examination schedules are provided by the director of examination evaluation, of Dr. B.A.M.U. However, the college, in the beginning of the academic year prepares academic calendar conceding university calendar which includes celebrations of various days, annual social gathering, university foundation day etc. The guidelines of the university about examinations are informed to students from time to time through student notice board, departmental notice boards also verbally by the faculty members of the college. The departments conduct internal assessment of students. The academic calendar is discussed in the departmental meeting. It is then distributed among all teaching faculty and non-teaching staff of the college. Delivery of lectures, completion of syllabus and conduction of examination are held in accordance with this academic calendar.

#### CRITERION VI – GOVERNANCE, LEADERSHIP AND MANAGEMENT

##### 6.1 – Institutional Vision and Leadership

6.1.1 – Mention two practices of decentralization and participative management during the last year (maximum 500 words)

Two practices of decentralization and participative management: The college and management follow decentralization of powers. The management is the highest in terms of administrative powers. The management delegates powers to the head of institution i.e., the principal. The principal delegates powers to the vice principal. The vice principal delegates powers to the IQAC coordinator. The

heads of the departments are the next in hierarchy who are responsible for the smooth functioning of the college and the departments. The management of the college allocates powers of decision making to Head of the institution i.e. The principal. The key areas like Institution administration, University compliances, Institution Strategies and Policies, Financial Matters, Research Development, Government Social interface and other proceedings in the office are supervised and executed by him for smooth functioning of the college. To facilitate and maintain the efficiency of the functioning of the college following committies are formed- • Admission • Time table • Discipline • Placement cell • Women harassment cell • IQAC • Cultural • Examination • College magazine • Library • Students satisfaction survey committee The policies of the governing bodies are communicated to the principal and further to the faculty at regular intervals. The plan of implementation for the students is done in connivance with these policies. Case study Admission process At the beginning of the academic year, the principal calls a staff meeting to discuss on the results, academic year planning and admissions. The principal constitutes the admission committee and appoints two conveners- one for Arts and the other for Science faculty. The teachers who comprise the committee are given instructions by the conveners regarding the rules and regulations of giving admissions to students. Subject combinations and the timing for executing the admission process and engaging classes is done in consultation with the teachers. Regarding the admissions for UG, PG and BCS, the criteria and rules laid down by the university are discussed. Instructions are given to the committee members about the filling of forms, fees structure and the necessary documents to be collected from the students. Teachers are also instructed to do careful scrutiny of the documents of foreign students. Suggestions from the faculty are invited and carefully considered by the authority for its smooth functioning. The faculty is empowered to take decisions and make suggestions to the convener which is further communicated to the principal. The committee has the freedom to plan and decide implementation strategies. The institution follows delegation, decentralization and empowerment policies while entrusting the responsibilities to faculty and staff All faculty members are given certain academic responsibilities. The delegation of responsibilities leads to transparency, faculty development and faculty enrichment. In view of above, the institute plans and declares various academic committees covering both faculty and administrative staff. Collective decision making is encouraged at all levels.

Women's education has always been a matter of concern for all the societies and in all the ages. But in modern era this has acquired the most important place as we need to face greater challenges in our times compared to the past. It is a fact that women are the half of the world. If they remain ignorant, the remaining half will also remain ignorant because she will be the mother of all the male part. In this way we need to educate the girls they are the future mothers. It is proved that women are the backbone of our society. Our college has shouldered this greatest responsibility of educating girls. It is a fact that our girls not only belong to the creamy layer of the society but also to the down trodden part. So, our responsibility becomes many folded. We need an all-round development of the girls. Our aim is to enable our students to face the modern world with all challenges, and share the responsibilities of able

citizen to bring about socio-economic growth of our society and strengthen our nation. Through the weapons of the education, we want to eradicate the evils of the society like superstitious, ignorance and exploitation etc. We want to create scientific temper among the students and change their attitude towards the education. We believe that only education can bring about positive change in lives of women. It breaks the shackles of ignorance and fades away the darkness of illiteracy. We want to nurture our students with the universal values of truth and courage. We want to help them in their pursuit of excellence. We want to foster them the spirit of secularism and also national integration. For coexistence can brings harmony and society can develop by leaps and bond. This is the best solution of all the problems. Our goal is to empower women through the means of education. We want to transform our students in to self dependent beings. They must establish their self respect, emotionally, socially and economically. We believe that education is the key to women empowerment, prosperity and welfare. Through education women have better access and opportunity in all the fields leading to increased income and strength Hence, our efforts with these motives have resulted into satisfactory outcome. For us women empowerment means emancipation of women from the vicious grips of social, economical, political, caste and gender-based discrimination. It means granting women the freedom to make right choices in life and realize their dreams.
