### Distinctiveness

Women's education has always been a matter of concern for all the societies and in all the ages. But in modern era this has acquired the most important place as we need to face greater challenges in our times compared to the past.

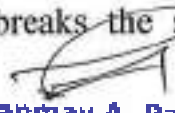

It is a fact that women are the half of the world. If they remain ignorant, the remaining half will also remain ignorant because she will be the mother of all the male part. In this way we need to educate the girls they are the future mothers. It is proved that women are the backbone of our society.

Our college has shouldered this greatest responsibility of educating girls. It is a fact that our girls not only belong to the creamy layer of the society but also to the down trodden part. So our responsibility becomes many folded. We need an all round development of the girls.

Our aim is to enable our students to face the modern world with all challenges, and share the responsibilities of able citizen to bring about socio-economic growth of our society and strengthen our nation.

Through the weapons of the education we want to eradicate the evils of the society like superstitious, ignorance and exploitation etc. We want to create scientific temper among the students and change their attitude towards the education.

We believe that only education can bring about positive change in lives of women. It breaks the shackles of ignorance and fades away the darkness of

illiteracy. We want to nurture our students with the universal values of truth and courage. We want to help them in their pursuit of excellence.

We want to foster them the spirit of secularism and also national integration. For coexistence brings harmony and society can develop by leaps and bond. This is the best solution of all the problems.

Our goal is to empower women through the means of education. We want to transform our students in to self dependent beings. They must establish their self respect, emotionally, socially and economically.

We believe that education is the key to women empowerment, prosperity and welfare. Through education women have better access and opportunity in all the fields leading to increased income.

Hence, our efforts with these motives have resulted into satisfactory results. For us women empowerment mean emancipation of women from the vicious grips of social, economical, political, caste and gender based discrimination. It means granting women the freedom to make choices in life and realize their dreams.

This workshop was organized for the students and their mother’s to create awareness regarding the threat of corona virus. More than 110 students (from Junior and Senior College) and 50 – 60 parents participated in this event.

Our Principal, Dr. Maqdoom Farooqui was very much interested and keen to organize such awareness workshop for our students and also parents and with this concern it was decided to organize this awareness programme.

Dr. Rathodkar, Medical Officer, Aurangabad Municipal corporation was invited as Resource Person who has the authenticity to interact with our students.

Dr. Rathodkar very efficiently and interesting cleared all the doubts of parents and students.

In his lecture he cleared all the misconception regarding this new threat of corona virus.

Corona virus is one of a member of viruses that causes disease in mammals and birds. In humans this virus causes respiratory infections, including common cough and cold which are typically mild.

### Symptoms vary in other species:

In chicken they cause upper respiratory diseases. In cows and pigs corona virus causes diarrhea.

There are no drugs to prevent or treat human corona virus infection. Corona virus can be transmitted between humans through respiratory droplets that infected people expel when they breathe, cough or sneeze.

Those who catch a common corona virus usually recover on their own and can all the process by taking pain and fever medications, using a humidifier, taking hot shower, drinking plenty of fluids and staying homes to rest.

Doctors can treat their patients for corona virus infection by analyzing respiratory specimens and serum isolated for their blood according to CDC.

Doctors also suggested that a typical surgical mask cannot block out the viral particles contained in these droplets but simple measures such as washing your hands, disinfecting frequently touched surfaces and objects and avoiding touching your nose, face, eyes-mouth can greatly lower your risk of infection.

The lecture was very informative and simple to understand. Students very curious questioned the doctor and were very satisfied.

Dr. Vidya Pradhan & Dr. Megha Rai has taken the efforts of organizing this workshop which was very beneficial to all.

## **Report** **Theme 2020 – Electoral Literacy for Stronger Democracy**

India is a democratic country. Every citizen has basic right to vote. They has the right to select their leader to whom ever they think is capable of leading the nation, solve the problems of common people, bring about change etc.

National Voters Day is a significant root of India as future of country lies in the leader that we choose. If we do not come forward and choose the right leader then the program and development of the country will be hampered and will also affect the people of the country. It is the leader of the country who decides various basic big projects and several things. If basic system will not be developed properly it may lead to under construction of roads, electricity, connection problem etc. Hence, we should encourage our youth for participation and build a strong network for the coming generation who will make face to cast their votes without fail.

Our Principal, Dr. Maqdoom Farooqui also told the History of National Voter Day. 25<sup>th</sup> January is the foundation day of the election commission of India which came into existence in 1950. This day was first celebrated in 2011 to encourage the young volunteers to take part in the electoral process. The day is to celebrate the right to vote and the law does not require citizen to vote but voting is a very important part of any democracy. Citizen vote for leaders to represent them and their ideas and the leader support the citizen's interim.

### **Aim:**

- In order to encourage more young voters to take part in the political process.
- To spread awareness among the youths so that they can cast their votes to a responsible person.
- To participate in the development of the country.
- To increase the enrolment of voters, especially the eligible ones.
