GREEN CLUB

ORIENTATION OF FIRST YEAR STUDENTS ABOUT YEWS 2023-24

Green Club seeks to promote environmental awareness among the students regarding the necessity of protection and conservation of the environment. Green Club was founded on 17th ~~July~~ ^{August} 2023, with the goal of contributing to a cleaner and greener environment. The Green club organizes a variety of events and activities to raise environmental awareness and works at instilling a responsible and proactive attitude among students towards environmental protection. The students were very much interested to join Green Club and this club consisted of more than 100 students. The main objective of the Green Club is to engage the students in environmental awareness and create a clean and green consciousness among the students through various activities. Green Club is a platform to obtain knowledge about environment.

GREEN CLUB

NIRMALYA COLLECTION AND COMPOSTING

On the 14th August, 2023, the Green Club of Dr. Rafiq Zakaria College for Women, Navkhanda, Chh. Sambhajinagar Aurangabad, successfully organized a Nirmalaya Collection and Composting drive as part of its environmental awareness initiatives activity of Green club. The primary objective of the event was to promote sustainable practices by collecting floral waste and converting it into compost for use in the college's garden.

The event was timed to coincide with the conclusion of the Ganesh Chaturthi festival, a period during which significant amounts of floral waste (Nirmalaya) accumulate. Recognizing the environmental impact of this waste, the Green Club spearheaded a campaign to encourage students, staff, and the local community to contribute their Nirmalaya offerings for composting rather than disposing of them in water bodies or waste dumps.

Objectives

1. Waste Management: To prevent floral offerings from polluting water bodies or landfills.
2. Sustainability: To utilize Nirmalaya for composting, thus promoting eco-friendly gardening practices.
3. Awareness: To educate students and the community on sustainable waste management and composting techniques.

Nirmalaya Collection Process: The collection drive was set up at designated points within the college premises, encouraging students and faculty to bring in the floral waste. The students of the Green Club actively participated in spreading awareness about the drive and the significance of composting.

Composting Process : After the collection, the floral waste was transferred to the college's composting facility. The process included the following steps:

1. Sorting: The students sorted the collected Nirmalaya to remove non-compostable items.
2. Layering: The sorted waste was then layered with dry leaves, organic waste, and soil in compost bins.
3. Maintenance: The composting piles were watered and aerated periodically to ensure proper decomposition.

The drive successfully collected over 150 kg of Nirmalaya. The compost produced from this initiative will be used to fertilize the plants in the college's garden, reducing the need for chemical fertilizers. Students and faculty gained hands-on experience with composting techniques, and the event sparked interest in future green initiatives. There are also discussions on collaborating with local communities to replicate this model outside the campus.

Conclusion: The Nirmalaya Collection and Composting drive was a significant step towards creating a sustainable and environmentally conscious campus. The participation and enthusiasm shown by the college community highlight the potential for ongoing green initiatives that can contribute to a cleaner and greener environment.

GREEN CLUB

REPORT ON TREE PLANTATION IN COLLEGE CAMPUS

2023-24

On 21st September 2023, the Green Club of Dr. Rafiq Zakaria College for Women, Cht. Sambhajinagar, Aurangabad, conducted a tree plantation drive in our college campus. This initiative aligns with our commitment to environmental sustainability and aims to enhance the ecological balance, improve air quality, and provide a green space for the college community. The event was part of our broader environmental awareness campaign and engaged students, faculty, and staff in a collaborative effort to green our campus. Increase the number of trees on campus to contribute to the beautification of the environment. The tree plantation drive organized by the Green Club College Coordinator, Dr. Baig Mumtaz Associate Professor and Head Department Botany under the Guidance of Principal Dr. Maqdoom Farooqui and Vice Principal Prof. Vidya Pradhan. Tree plantation was a significant step toward enhancing the environmental quality of our college campus. The enthusiastic participation of students, faculty, and staff demonstrated a collective commitment to sustainability. The newly planted trees will contribute to a greener, healthier, and more vibrant campus environment. The Green Club looks forward to continuing its efforts in environmental conservation and encourages the college community to remain engaged in future initiatives. The efforts were taken by Dr. Shahim Fatima Assistant Professor for making the event successful.

GREEN CLUB

REPORT OF WORLD DAY CELEBRATION : POSTER PRESENTATION ANY RALLY

On the occasion of World Water Conservation Day, 22th March 2024 the Green Club of Dr. Rafiq Zakaria College for Women, organized an awareness campaign featuring poster presentations and a rally to highlight the importance of water conservation and sustainable water management practices. The event aimed to engage students in environmental activities and educate them about the urgent need to protect our water resources.

Objectives of the Event

1. Raise Awareness: To educate students and the local community about the significance of conserving water.

2. Promote Action: To encourage individuals to adopt water-saving practices in their daily lives.

3. Engage Students: To involve students in creative activities like poster presentations that express their thoughts on water conservation.

Poster Presentation : The event began with a poster presentation competition, where students displayed their creative work highlighting the theme of water conservation. The posters depicted various aspects of water scarcity, the impact of pollution, and solutions for sustainable water use. Students used this platform to share their insights, messages, and ideas, demonstrating their understanding of the global water crisis and the need for conservation. The posters were evaluated by a panel of faculty members based on creativity, message clarity, and visual appeal.

Rally for Water Conservation:

Following the poster presentations, the Green Club organized a rally within and around the college campus. Participants, including students, faculty members, and volunteers from the Green Club, held banners and chanted slogans promoting water conservation and responsible water usage.

Route: The rally covered key areas of the campus and nearby streets to engage the local community.

Slogans and Messages: The students carried signs with messages like "Save Water, Save Life" and "Every Drop Counts," aiming to capture attention and raise awareness among passersby.

Public Engagement: Students distributed informational leaflets on water conservation techniques, such as rainwater harvesting, reducing water wastage, and sustainable agriculture practices.

Impact and Outcomes

Over 60 students participated, demonstrating strong enthusiasm and commitment to the cause of water conservation. The event successfully spread awareness among students and the local community, encouraging practical actions to conserve water.

GREEN CLUB

REPORT ON CAMPUS CLEANING DRIVE
2023-24

The Green Club of Dr. Rafiq Zakaria College for Women, Chh. Sambhajinagar, successfully organized a Campus Cleaning Drive on 21st September 2023 by the Green Club Coordinator Dr. Baig Mumtaz, under the guidance of Principal Dr. Maqdoom Farooqui. The objective of this initiative was to promote cleanliness, environmental awareness, and a sense of responsibility among students and staff. Students, faculty members, and volunteers from various departments actively participated in the drive.

Areas Covered: The drive focused on cleaning the college premises, including classrooms, corridors, gardens, and other common areas. Special attention was given to waste management and the proper disposal of trash.

Activities Conducted:

1. **Collection and Segregation of Waste:** Participants collected litter from various locations within the campus. Waste was segregated into biodegradable and non-biodegradable categories to ensure proper disposal.
2. **Awareness Campaign:** Students held placards and banners emphasizing the importance of cleanliness and a sustainable environment. They also conducted a brief awareness session highlighting the significance of maintaining a clean campus.
3. **Plantation Drive:** As part of the event, participants planted saplings in designated areas to enhance the green cover of the campus and promote environmental conservation.
4. **Recycling Initiative:** The waste collected during the drive was carefully sorted, and recyclable materials were sent for recycling. The Green Club collaborated with local agencies to manage waste efficiently.

The Campus Cleaning Drive was a success, with active participation from the college Students. It not only improved the cleanliness of the campus but also instilled a sense of environmental responsibility among students and staff. The event emphasized the importance of collective efforts in maintaining a clean and healthy environment.

The Green Club extends its gratitude to the college administration, faculty members, and students for their support and participation.

The topic of the lecture was “How to write an Article.” Members of the staff, Dr Nilofer Shakir, Dr Khan Mahlaqa and Mrs Siddiqui Kahekasha Afreen gathered the students at 01.00 p.m. in the classroom where they had organized the lecture. Dr Nilofer Shakir, Head of the Department, introduced the guest to the students after which he took to the dias. Dr. Rajesh Shesham interacted with students right from the start, asking them simple questions about the meaning and purpose of research and the need for article writing. He instructed them on the topic in a simple manner and kept the students engaged till the end of lecture. The students found Dr Shesham’s instructions valuable. They engaged with him in a Q&A session and the students thanked him at the end of the lecture.

Departmental Profile and Activities

2023-24

Department Of Physics

The department of physics is well equipped with two spacious labs for college students. Most of the instruments and apparatus required for demonstrations and practical are available in the department. Apart from academics, the department enthusiastically plans and executes different curricular and co-curricular activities for the overall development of the students. Various events like seminars, poster presentation, quiz competition, guest lecture, departmental level workshop, educational tours are arranged for the students.

The department of physics works on solar energy. The Novel method is adopted for the use of solar energy. We do not convert the solar DC to AC, but we use direct 12 Volt DC output of solar panel because our most of the instruments work on DC supply and as per requirement we convert it to 6v, 5v or 3 v supply.

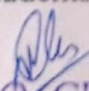

Another special feature of the department is that our students assemble the LED bulbs they can repair it. We are having the add on course on LED bulb assembling.

Apart from this we are having different add on courses like Domestic electric wiring system, Home appliances repairing course etc.

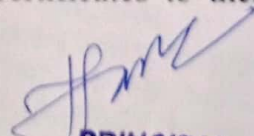

Eminent speakers and experts in the subject are invited to deliver their lectures. With the aim of building up confidence and erase the phobia of presentation, poster presentations on various day to day activities involving laws and principles of physics are organized. Faculties from another department and collages are invited to judge the presentations.

Department has library facility with 200 different books. There is special arrangements for remedial classes, slow learner and advance learner.

Another activity of the department is the seminars by the third year students. Topic of interest is chosen and power point presentations are given. Based on their over all excellence, style of presentation I, II and III positions short listed. Efforts taken by the students are appreciated by distributing certificates to them. The

department hosts the quiz competition every year during the annual sports week of the college. Students from all the departments participate in this activity with great interest and it is one of the most awaited program of the college.

The department arranges educational tour to places like hydro, solar power station and wind mills, to enhance their understanding regarding non convectional energy sources. The faculty guides the students on various small projects and makes them compulsory to submit their report.

GREEN CLUB

ORIENTATION OF FIRST YEAR STUDENTS ABOUT YEWS 2023-24

Green Club seeks to promote environmental awareness among the students regarding the necessity of protection and conservation of the environment. Green Club was founded on 17th ~~July~~ ^{August} 2023, with the goal of contributing to a cleaner and greener environment. The Green club organizes a variety of events and activities to raise environmental awareness and works at instilling a responsible and proactive attitude among students towards environmental protection. The students were very much interested to join Green Club and this club consisted of more than 100 students. The main objective of the Green Club is to engage the students in environmental awareness and create a clean and green consciousness among the students through various activities. Green Club is a platform to obtain knowledge about environment.

GREEN CLUB

NIRMALYA COLLECTION AND COMPOSTING

On the 14th August, 2023, the Green Club of Dr. Rafiq Zakaria College for Women, Navkhanda, Chh. Sambhajinagar Aurangabad, successfully organized a Nirmalaya Collection and Composting drive as part of its environmental awareness initiatives activity of Green club. The primary objective of the event was to promote sustainable practices by collecting floral waste and converting it into compost for use in the college's garden.

The event was timed to coincide with the conclusion of the Ganesh Chaturthi festival, a period during which significant amounts of floral waste (Nirmalaya) accumulate. Recognizing the environmental impact of this waste, the Green Club spearheaded a campaign to encourage students, staff, and the local community to contribute their Nirmalaya offerings for composting rather than disposing of them in water bodies or waste dumps.

Objectives

1. Waste Management: To prevent floral offerings from polluting water bodies or landfills.
2. Sustainability: To utilize Nirmalaya for composting, thus promoting eco-friendly gardening practices.
3. Awareness: To educate students and the community on sustainable waste management and composting techniques.

Nirmalaya Collection Process: The collection drive was set up at designated points within the college premises, encouraging students and faculty to bring in the floral waste. The students of the Green Club actively participated in spreading awareness about the drive and the significance of composting.

Composting Process : After the collection, the floral waste was transferred to the college's composting facility. The process included the following steps:

1. Sorting: The students sorted the collected Nirmalaya to remove non-compostable items.
2. Layering: The sorted waste was then layered with dry leaves, organic waste, and soil in compost bins.
3. Maintenance: The composting piles were watered and aerated periodically to ensure proper decomposition.

The drive successfully collected over 150 kg of Nirmalaya. The compost produced from this initiative will be used to fertilize the plants in the college's garden, reducing the need for chemical fertilizers. Students and faculty gained hands-on experience with composting techniques, and the event sparked interest in future green initiatives. There are also discussions on collaborating with local communities to replicate this model outside the campus.

Conclusion: The Nirmalaya Collection and Composting drive was a significant step towards creating a sustainable and environmentally conscious campus. The participation and enthusiasm shown by the college community highlight the potential for ongoing green initiatives that can contribute to a cleaner and greener environment.

GREEN CLUB

REPORT ON TREE PLANTATION IN COLLEGE CAMPUS

2023-24

On 21st September 2023, the Green Club of Dr. Rafiq Zakaria College for Women, Cht. Sambhajinagar, Aurangabad, conducted a tree plantation drive in our college campus. This initiative aligns with our commitment to environmental sustainability and aims to enhance the ecological balance, improve air quality, and provide a green space for the college community. The event was part of our broader environmental awareness campaign and engaged students, faculty, and staff in a collaborative effort to green our campus. Increase the number of trees on campus to contribute to the beautification of the environment. The tree plantation drive organized by the Green Club College Coordinator, Dr. Baig Mumtaz Associate Professor and Head Department Botany under the Guidance of Principal Dr. Maqdoom Farooqui and Vice Principal Prof. Vidya Pradhan. Tree plantation was a significant step toward enhancing the environmental quality of our college campus. The enthusiastic participation of students, faculty, and staff demonstrated a collective commitment to sustainability. The newly planted trees will contribute to a greener, healthier, and more vibrant campus environment. The Green Club looks forward to continuing its efforts in environmental conservation and encourages the college community to remain engaged in future initiatives. The efforts were taken by Dr. Shahim Fatima Assistant Professor for making the event successful.

GREEN CLUB

REPORT OF WORLD DAY CELEBRATION : POSTER PRESENTATION ANY RALLY

On the occasion of World Water Conservation Day, 22th March 2024 the Green Club of Dr. Rafiq Zakaria College for Women, organized an awareness campaign featuring poster presentations and a rally to highlight the importance of water conservation and sustainable water management practices. The event aimed to engage students in environmental activities and educate them about the urgent need to protect our water resources.

Objectives of the Event

1. Raise Awareness: To educate students and the local community about the significance of conserving water.
2. Promote Action: To encourage individuals to adopt water-saving practices in their daily lives.
3. Engage Students: To involve students in creative activities like poster presentations that express their thoughts on water conservation.

Poster Presentation : The event began with a poster presentation competition, where students displayed their creative work highlighting the theme of water conservation. The posters depicted various aspects of water scarcity, the impact of pollution, and solutions for sustainable water use. Students used this platform to share their insights, messages, and ideas, demonstrating their understanding of the global water crisis and the need for conservation. The posters were evaluated by a panel of faculty members based on creativity, message clarity, and visual appeal.

Rally for Water Conservation:

Following the poster presentations, the Green Club organized a rally within and around the college campus. Participants, including students, faculty members, and volunteers from the Green Club, held banners and chanted slogans promoting water conservation and responsible water usage.

Route: The rally covered key areas of the campus and nearby streets to engage the local community.

Slogans and Messages: The students carried signs with messages like "Save Water, Save Life" and "Every Drop Counts," aiming to capture attention and raise awareness among passersby.

Public Engagement: Students distributed informational leaflets on water conservation techniques, such as rainwater harvesting, reducing water wastage, and sustainable agriculture practices.

Impact and Outcomes

Over 60 students participated, demonstrating strong enthusiasm and commitment to the cause of water conservation. The event successfully spread awareness among students and the local community, encouraging practical actions to conserve water.

GREEN CLUB

REPORT ON CAMPUS CLEANING DRIVE
2023-24

The Green Club of Dr. Rafiq Zakaria College for Women, Chh. Sambhajinagar, successfully organized a Campus Cleaning Drive on 21st September 2023 by the Green Club Coordinator Dr. Baig Mumtaz, under the guidance of Principal Dr. Maqdoom Farooqui. The objective of this initiative was to promote cleanliness, environmental awareness, and a sense of responsibility among students and staff. Students, faculty members, and volunteers from various departments actively participated in the drive.

Areas Covered: The drive focused on cleaning the college premises, including classrooms, corridors, gardens, and other common areas. Special attention was given to waste management and the proper disposal of trash.

Activities Conducted:

1. **Collection and Segregation of Waste:** Participants collected litter from various locations within the campus. Waste was segregated into biodegradable and non-biodegradable categories to ensure proper disposal.
2. **Awareness Campaign:** Students held placards and banners emphasizing the importance of cleanliness and a sustainable environment. They also conducted a brief awareness session highlighting the significance of maintaining a clean campus.
3. **Plantation Drive:** As part of the event, participants planted saplings in designated areas to enhance the green cover of the campus and promote environmental conservation.
4. **Recycling Initiative:** The waste collected during the drive was carefully sorted, and recyclable materials were sent for recycling. The Green Club collaborated with local agencies to manage waste efficiently.

The Campus Cleaning Drive was a success, with active participation from the college Students. It not only improved the cleanliness of the campus but also instilled a sense of environmental responsibility among students and staff. The event emphasized the importance of collective efforts in maintaining a clean and healthy environment.

The Green Club extends its gratitude to the college administration, faculty members, and students for their support and participation.

Celebration of National Sciences Day

Name of the Event : The Department of zoology has visited the
APJ Abdul kalam Astrospace centre & club
Aurangabad.

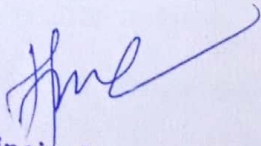

For direct relay of launch of Chandrayan 3

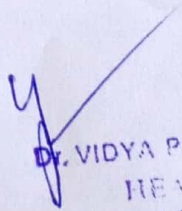

Date of the event : 14th july 2023

Student Participated : 69

Aim

- Chandrayaan-3 was the third lunar exploration mission developed by the Indian Space Research Organisation (ISRO). Its primary aim was to further explore the lunar surface, building upon the successes and knowledge gained from the Chandrayaan-1 and Chandrayaan-2 missions. Here are some of the key objectives and aims typically associated with Chandrayaan-3:
- Lunar Surface Exploration: Chandrayaan-3 aimed to conduct detailed exploration of the lunar surface, including studying its topography, mineralogy, and elemental abundance.
- Technology Demonstration: Like its predecessors, Chandrayaan-3 was expected to demonstrate and test various technologies crucial for future lunar and planetary missions. This includes landing technologies, rover operations, and communication systems.
- Scientific Research: The mission intended to carry scientific payloads to gather data that would contribute to a better understanding of the Moon's geology, evolution, and its potential resources.
- Chandrayaan-3 might have included the deployment of a rover to traverse the lunar surface, collecting samples and conducting experiments.
- Besides the scientific objectives, Chandrayaan-3 also aimed to enhance ISRO's capabilities in terms of space exploration, lunar landing, and mission planning.
- ISRO has been open to collaborating with other space agencies and countries on lunar exploration missions. Chandrayaan-3 could potentially have involved collaboration with other nations for scientific and technological purposes.

World Snake Day

Name of the Event : One Day Workshop on Celebrate
"Save Snake Save Earth) Snakebite
Snake conservation Awareness Programmer".

Collaboration With : Environmental Foundation and Educational
Academy Aurangabad.

Venue of the Event : P.Fatima Rafiq Zakaria Hall

Chief Guest : Dr.DilipYardi (Ornithologist)

Resources Person : 1) Mr.Dusane (Snake Expert)
2)Mr.kunal vibhandik(Environmentalist)

Date of the event : 13th sept 2023

Students Participated : 65

AIM:

- To raise awareness about snakes and their importance in ecosystems. Snakes play a vital role in maintaining a balanced ecosystem by controlling populations of rodents and other pests.
- To promote the conservation of snake species. Many snake species are threatened or endangered due to habitat loss, illegal wildlife trade, and persecution.
- To educate the public about the benefits of snakes, their behaviour, and their role in the natural world. It also helps dispel myths and misconceptions about snakes and encourages a better understanding of these creatures.
- To draw attention to the various threats faced by snake populations, such as habitat destruction, pollution, and the illegal pet trade. By highlighting these issues, it encourages people and organizations to take action to protect snakes.
- Promotes responsible handling and treatment of snakes. This helps reduce human-snake conflicts and promotes coexistence.
- To encourages scientific research and study of snakes to gain a better understanding of their biology, behaviour, and conservation needs.

Poisonous Snake and Non Poisonous Snake

Name of the Event : Poster on Poisonous Snake and
Non Poisonous Snake Total 30 poster were Present our
Student Present the Poster
Collaboration : Model high school VI,VII,VIII,Std
Date of the event : 18th July 2023
Student Participated: 85

Aims:

- The primary aim of the poster is to educate viewers about the differences between venomous and non-venomous snakes. By presenting clear visual representations and concise information, viewers will gain a better understanding of these fascinating creatures.
- Another important goal is to raise awareness about safety measures when encountering snakes. Understanding which snakes are venomous and potentially dangerous can help people take appropriate precautions and respond effectively in encounters with snakes in their natural habitat.
- The poster aims to highlight the ecological significance of both venomous and non-venomous snakes. By showcasing their roles as predators in various ecosystems, viewers will develop a deeper appreciation for the importance of snakes in maintaining ecological balance.
- Providing key characteristics and features of venomous and non-venomous snakes will help viewers develop identification skills. Learning to distinguish between different snake species based on physical traits can enhance their ability to coexist peacefully with these animals while minimizing the risk of harm.
- Finally, the poster aims to promote conservation efforts for both venomous and non-venomous snake species. By emphasizing the importance of preserving snake habitats and ecosystems, viewers will be encouraged to support conservation initiatives aimed at protecting these valuable components of biodiversity.

Date of the event : 26-07-2023

Resource Person : 1) Prof. Sunita Boarde
2) Prof. J. D. Shaikh

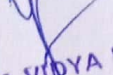

Students Participated : 20

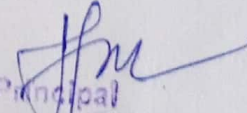

Aim:

- Ensure the quality and integrity of research conducted within the department by establishing and upholding rigorous research standards and ethics.
- Manage and allocate research funds to support faculty and student research projects, ensuring that resources are used efficiently and effectively.
- Review research proposals and projects to assess their feasibility, scientific merit, and alignment with departmental research priorities.
- Foster a culture of research and scholarly inquiry within the department, encouraging faculty and students to engage in research activities.
- Facilitate research collaborations and partnerships both within the department and with external institutions or organizations to enhance research outcomes.
- Promote the dissemination of research findings through publications, conferences, and other means, contributing to the department's academic reputation.
- Provide guidance and mentorship to junior faculty and students, helping them develop their research skills and pursue successful research projects.
- Develop a departmental research strategy and roadmap, aligning research goals with the department's broader educational and institutional objectives.

Objective:

- Ensure that research within the department aligns with the department's mission and goals.
- Establish and uphold rigorous research standards and ethical guidelines to maintain the quality and integrity of research.

learn more About our Environment
Becoming Danger that face our Planet our
Student Participate and got the Certificate

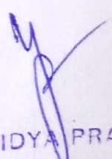

Date of event : 22 August 2023

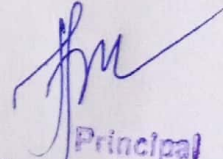

Venue of the Event : Department of zoology

Students Participated : 87

Aim

- The competition aims to raise awareness among students about pressing environmental issues and challenges facing our planet. By engaging in various activities and projects related to environmental conservation, students gain a deeper understanding of the importance of preserving natural resources and protecting ecosystems.
- The competition encourages students to develop innovative solutions and creative initiatives to address environmental problems. By providing a platform for students to showcase their ideas and projects, the competition inspires a culture of innovation and entrepreneurship in the field of environmental sustainability.
- Through participation in the competition, students have the opportunity to take on leadership roles and responsibilities. By organizing events, leading projects, and advocating for environmental causes, students develop valuable leadership skills and become effective agents of change within their communities.
- The competition promotes collaboration and teamwork among students from diverse backgrounds and disciplines. By working together on environmental projects and initiatives, students learn to appreciate the importance of cooperation and collective action in addressing complex environmental issues.

Celebration of World River Day

Name of the event : Celebration of World River Day
Student Visited Awareness & Cleanness and
Conservation of River
Place of the event : Salim Ali Lake
Date of the event : 27th sept 2023
Student Participated: 52

Aims

- One of the primary goals of World Rivers Day is to increase public awareness about the significance of rivers in providing water resources, biodiversity, and various ecosystem services.
- The day aims to encourage individuals, communities, and organizations to take active roles in the conservation and protection of rivers. This involves promoting sustainable practices to ensure the health and longevity of river ecosystems.
- World Rivers Day provides a platform to highlight the various challenges and issues facing rivers globally, such as pollution, over-extraction of water, habitat destruction, and climate change. By bringing attention to these issues, it seeks to inspire action and solutions.
- The event aims to foster a sense of responsibility and stewardship among people towards their local rivers. This includes promoting activities such as river clean-ups, tree planting along riverbanks, and other initiatives that contribute to the well-being of rivers.
- World Rivers Day celebrates the diversity of rivers around the world, recognizing their cultural, ecological, and economic importance. It encourages people to appreciate the unique characteristics of their local rivers and the role they play in supporting life.
- The day serves as an opportunity to advocate for policies and practices that promote sustainable river management at local, national, and global levels.

World Heart Day
Name of event : World Heart Day.
Poster Exhibition on Structure On Functiong
& Circulation of Blood in Heart
Date of event : 30 Sept 2023
Student Participated :

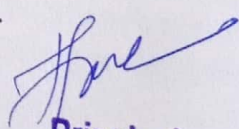

Aims:

- To raise awareness among students about the importance of heart health, cardiovascular diseases, and their prevention.
- To adopt and maintain heart-healthy lifestyles by making positive choices in terms of diet, physical activity, and stress management.
- Educate students about the risk factors for heart disease, including unhealthy eating habits, physical inactivity, smoking, and excessive stress.
- Empower students with knowledge and skills to make informed decisions regarding their heart health and inspire them to take charge of their well-being.

Objectives:

- Provide students with information about the structure and function of the heart, common heart diseases, and their prevention. Utilize age-appropriate materials and resources.
- To teach students about the significance of a balanced diet that includes fruits, vegetables, whole grains, lean proteins, and limits saturated and trans fats, sodium, and added sugars.
- Promote physical activity by encouraging students to engage in regular exercise. Organize physical activities, sports events, or fitness challenges to emphasize the importance of an active lifestyle.
- Teach stress management techniques and the impact of stress on heart health. Promote relaxation exercises and mindfulness practices.
- To inform students about the detrimental effects of smoking, tobacco use, and substance abuse on heart health. Encourage a smoke-free environment.
- Organize workshops or demonstrations on healthy cooking and eating, showing students how to prepare heart-healthy meals.

AIMS

- The sanctuary is covered with dry deciduous forests and has a variety of plant species. The vegetation includes species like teak, bamboo, ain, tendu, and more.
- The sanctuary is home to a diverse range of wildlife, including leopards, sloth bears, barking deer, sambar deer, wild boars, and various species of birds. The area is also known for its butterfly diversity.
- Bird enthusiasts can find numerous species of birds in the sanctuary. Some common sightings include peafowl, bulbul, parakeets, and more.
- The sanctuary offers picturesque landscapes, with hills, valleys, and water bodies. It's not only a haven for wildlife enthusiasts but also for those who appreciate natural beauty.
- The sanctuary provides opportunities for trekking, allowing visitors to explore its terrain and experience its natural beauty up close.

Objectives

- Wildlife sanctuaries are established to conserve and protect the diverse flora and fauna in a particular region. This includes the preservation of endangered species and their habitats.
- Providing a safe and undisturbed habitat for various species is a key objective. This involves maintaining the natural ecosystems, including forests, grasslands, and water bodies.

Wildlife India
2) Uploaded Various fauna of campus on Biodiversity
Portal

Resources Person : Mr. Quazi Farooqui

Date of the Event : 7th Oct 2023

Students Participated : 85

Aim

- The primary aim is to conserve the diverse flora and fauna found in forest ecosystems. This includes endangered species, keystone species, and their habitats to maintain the ecological balance.
- Protecting and preserving the natural habitats of wildlife species is essential to ensure their survival. This involves maintaining and restoring forest ecosystems, wetlands, grasslands, and other critical habitats.
- Combating illegal activities such as poaching, illegal logging, encroachment, and wildlife trafficking is crucial for the protection of forest wildlife. Strict enforcement of wildlife protection laws and increasing surveillance efforts are aimed at curbing such activities.
- Promoting sustainable forest management practices that balance conservation with socio-economic development is essential. This includes measures such as promoting agroforestry, community-based conservation initiatives, and sustainable harvesting practices.
- Establishing and maintaining wildlife corridors and connectivity between fragmented habitats is essential for ensuring the long-term survival of wildlife populations. These corridors facilitate the movement of animals, genetic exchange, and population viability.
- Involving local communities in conservation efforts and empowering them to participate in decision-making processes is vital. This includes promoting

Study Tour Bhandardara

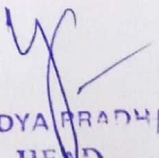

Name of the event : Study Tour Bhandardara (Randa waterfall)
Biodiversity Flora and Fauna of Sadan vally.

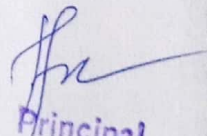

Date of the event : 14th octomber 2023

Students Participated :30

Aims

- To familiarize participants with the local culture, traditions, and way of life in Bhandardara.
- To educate participants about the natural beauty, biodiversity, and environmental conservation efforts in Bhandardara.
- To explore the historical significance of Bhandardara and its surrounding areas, including any historical sites, landmarks, or monuments.
- To examine the economic activities, industries, and livelihoods of the local population in Bhandardara.
- To understand the tourism infrastructure, attractions, and tourism management practices in Bhandardara, including issues related to sustainability and responsible tourism.
- To interact with local communities, stakeholders, and organizations to learn about their perspectives, challenges, and initiatives in Bhandardara.
- To conduct field studies, surveys, interviews, or other research activities to gather data and insights relevant to the study tour objectives.
- To facilitate networking opportunities for participants with professionals, experts, and practitioners in relevant fields related to Bhandardara.
- To promote personal growth, cultural awareness, and global citizenship among participants through experiential learning and reflection.
- Overall, the study tour aims to provide a holistic learning experience that combines academic knowledge with practical exposure to the destination, thereby enhancing participants' understanding and appreciation of Bhandardara and its significance.

Green Initiative

Name of the event : One day Workshop on Bird Nest Making Habiba
Urdu Highschool 20 Nest were prepared and placed
in the Campus

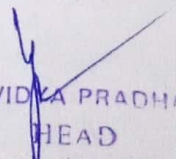

Date of the event : 18 octomber 2023

Resources Person : Kunal vibhandik(Environmenlist)

Student Participated : 75

Aims

- The primary aim of the bird nest making school is to contribute to the conservation of avian species by providing suitable nesting habitats. By teaching people how to construct bird nests, we aim to increase nesting opportunities for birds, especially those facing habitat loss and population decline.
- The school aims to educate the community about the importance of birds and their role in maintaining ecological balance. By raising awareness about the significance of bird nests and the threats they face, we seek to foster a sense of responsibility towards bird conservation.
- Bird nests provide essential shelter for a wide variety of bird species, contributing to biodiversity conservation. By encouraging the creation of diverse types of bird nests, we aim to promote biodiversity in local ecosystems and create favorable conditions for birds to thrive.
- The school emphasizes the use of environmentally friendly and sustainable materials for constructing bird nests. By promoting sustainable practices in nest making, we aim to minimize the negative impact on the environment and ensure the long-term viability of bird habitats.

Awareness Camp on Blood Group Testing

Name of the event : Blood Testing Camp Senior and Junior
College Student

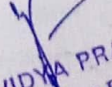

Date of the event : 1st November 2023

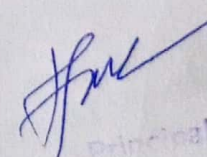

Venue of the Event : Department of Zoology

Student Participated : 92

Aims

- The primary aim of the blood testing camp is to raise awareness among college students about the importance of regular health check-ups and understanding their own health status. By providing easy access to blood tests, students can learn about their basic health parameters and take proactive steps towards improving their well-being.
- Another aim is to facilitate early detection of potential health issues or underlying medical conditions among college students. Regular blood tests can help identify abnormalities or risk factors such as anemia, diabetes, lipid disorders, or infections, enabling timely intervention and treatment.
- The camp aims to serve as an educational platform for students to learn about the significance of various blood tests, their interpretation, and the implications for overall health. Through informative sessions and interactions with healthcare professionals, students can gain valuable insights into preventive healthcare practices and disease management strategies.
- By emphasizing the importance of regular health screenings and maintaining a healthy lifestyle, the camp aims to promote positive health behaviors among college students. This includes encouraging habits such as balanced nutrition, physical activity, stress management, and avoiding substance abuse, which are essential for overall well-being.
- The camp seeks to provide convenient access to healthcare services for college students, especially those who may face barriers such as limited financial resources, lack of awareness, or time constraints. By offering free or subsidized blood tests on campus, the camp aims to remove logistical hurdles and ensure equitable access to essential healthcare services.

Green Initiative

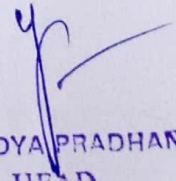

Name of the event : Visit to Primary School & Middle School
(Z.P School, Primaray School)
Village : Gavandari Thanda Centre Ohar
(Dist. Aurangabad).

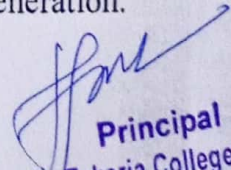

Date of the event : 1st November 2023
1) Rally say no plastic
2) Donate dustbin to school (Dry & Wet waste)
3) Distribution notebook
4) Distribution cloth bags
5) Awareness on Malaria, Dengu to Villagers

Student participated :

Aim

- Awareness Raising: Increase awareness among school students about the detrimental effects of plastic pollution on the environment, wildlife, and human health.
- Behavioral Change: Encourage students to adopt eco-friendly habits and reduce their usage of single-use plastics by promoting alternatives such as reusable cloth bags.
- Community Engagement: Engage students, teachers, and parents in a collective effort to address the plastic pollution problem and foster a sense of responsibility towards environmental conservation.
- Education: Provide educational resources and information about the environmental impact of plastic pollution, the importance of waste management, and the benefits of sustainable alternatives.
- Practical Action: Distribute reusable cloth bags to students as a practical solution to reduce plastic consumption and encourage the use of eco-friendly alternatives.
- Refreshments: Provide refreshments during the program using environmentally-friendly, biodegradable, or reusable packaging to demonstrate sustainable practices and minimize plastic waste generation.

Dr.Salim Ali lake series

Name of the Event : Dr.Salim Ali lake series
1) One Day Workshop On "Bird Vocalization"
2) Book tour of Birds
Resources person : 1) Miss. Swarada Joshi (Environmentlist)
2) Mr. Kunal Vabhandik (Wildlife photographer)
Date of the Event : 4th November 2023
Student Participated : 89

AIMS

- Increase public awareness and understanding of bird vocalization, including its significance in avian communication, behavior, and ecology.
- Educate audiences about the diversity of bird vocalizations, including songs, calls, and other vocal behaviors, and their role in species identification and conservation.
- Highlight the importance of bird conservation efforts in preserving natural habitats and protecting bird populations, emphasizing the link between healthy ecosystems and biodiversity.
- Inspire individuals to become advocates for bird conservation by fostering appreciation for birds and their vocalizations through engaging and informative presentations.
- Foster a deeper appreciation for the scientific study of bird vocalization among researchers, naturalists, and bird enthusiasts, promoting interdisciplinary collaboration and knowledge exchange.
- Showcase recent advancements in the field of bioacoustics and bird vocalization research, including innovative techniques for recording, analyzing, and interpreting avian vocalizations.
- Explore the cultural and artistic significance of bird vocalization in human societies, including its influence on music, literature, folklore, and visual arts across different cultures and historical periods.

“Celebration of National Science Day”

Name of the Event: National Sciences Day

(One day seminar on Genetic Engineering)

Inauguration of 3rd Edition of “Self Fest Magazine”

Date of the Event: 28th Feb 2024

Resources Person: Prof. Gulab Khedkar

(Director, Paul Heberd Centre for DNA

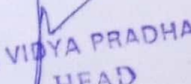

Barcoding & Biodiversity Studies, Dr. BAMU

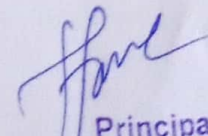

Aurangabad)

Students Participated: 102

Aims:

- To honor the contributions of Sir C.V. Raman to the field of science, particularly his discovery of the Raman Effect.
- The day serves to raise public awareness about the importance of science and how it is integral to the daily life of every individual. Through various programs and activities, it aims to spark interest among the general public and particularly among the youth in science and its applications.
- The day encourages the development of scientific temper among the masses. It stresses the role of science in society and promotes critical and logical thinking.
- Through exhibitions, lectures, quizzes, and demonstrations, National Science Day attempts to foster a love for science among students and encourages them to pursue science as a career.
- It also highlights the role and support of scientific research in national development. Various scientific institutions and research labs open their doors to the masses on this day to showcase how scientific research is conducted and how it benefits society.

Aquarium Making

Name of the Event : One Day Workshop on Aquarium Making

Date of the Event : 28th Feb 2023

Students Participated : 79

Aim

- Aquariums serve as educational tools, teaching people about marine biology, ecosystems, and environmental science.
- Scientists and students use aquariums to study marine life, behavior, and ecological interactions in a controlled environment.
- Many aquariums focus on breeding endangered species to help increase their population and potentially reintroduce them to the wild.
- Aquariums often participate in efforts to restore and rehabilitate marine and freshwater habitats.
- Many individuals create aquariums to enhance the aesthetic appeal of their homes.
- Recreation and Relaxation: Aquariums provide a sense of tranquility and relaxation, benefiting mental health and well-being.
- Public aquariums are popular tourist attractions, contributing to local economies.
- The aquarium trade supports a wide market of hobbyists and professionals who buy fish, plants, equipment, and supplies.
- Public and private aquariums often aim to raise awareness about marine conservation issues and inspire people to protect aquatic environments.
- They frequently run campaigns and programs that educate the public on the importance of preserving aquatic ecosystems.
- Innovation: Developing new technologies and methods for maintaining healthy aquariums can lead to advances in water filtration, marine health monitoring, and aquaculture.
- Scientific Contribution: Research conducted in aquariums can contribute to broader scientific knowledge and applications, such as biotechnology and environmental management.

World Wildlife Day

Name of the Event: Celebration World Wildlife Day

Habiba Urdu School Children (Flora on Wild

Karnataka)

Biodiversity of animal Conservation and Protection

Date of the Event : 4th March 2024

Students Participated: 98

Aim

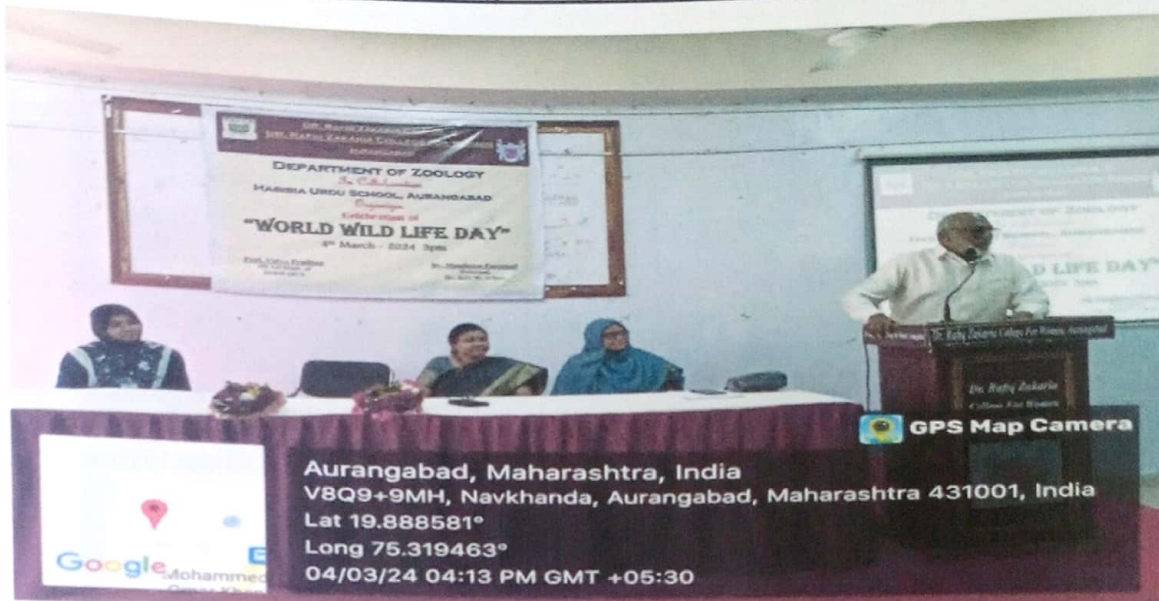

- To increase awareness about the importance of protecting wild animals and plants for ecological balance, environmental health, and overall sustainability.
- To celebrate the diverse forms of flora and fauna across the globe, highlighting the intricate ecosystems in which they exist and the benefits they provide to humanity.
- To encourage conservation efforts aimed at protecting endangered species and preventing biodiversity loss. This includes support for national and international policies aimed at wildlife conservation.
- To raise awareness about and combat the global issue of wildlife crime (like poaching and trafficking), which poses a severe threat to many species' survival.
- To engage schools, universities, and other educational institutions in promoting learning about wildlife and its conservation, encouraging a deeper connection with nature among young people.
- To emphasize the importance of sustainable use of wildlife resources by local communities and industries, ensuring that such use benefits conservation efforts and promotes biodiversity.
- To inspire people everywhere to connect with and appreciate nature and its intrinsic value, and to motivate them to contribute actively to wildlife and environmental conservation.

Visit to kokan (Velas) Turtle festival

Name of the Event : Visit to kokan(Velas) Turtle festival
Date of the Event : 9th March 2024
Students Participated : 17

Aim

- The Turtle Festival in the Kokan region of Maharashtra, India, primarily aims to promote the conservation of Olive Ridley turtles and their nesting sites along the coastline.
- The festival, organized by local environmental groups and wildlife conservation organizations, seeks to raise awareness about the importance of protecting these endangered species and their natural habitats.
- Conservation Awareness: Educating locals and visitors about the significance of Olive Ridley turtles and the ecological balance they help maintain.
- Community Involvement: Engaging the local community in conservation efforts, fostering a sense of responsibility and ownership towards protecting the turtles.
- Sustainable Tourism: Promoting eco-friendly tourism that supports local economies while ensuring minimal impact on the turtle habitats.
- Scientific Research: Facilitating data collection and research on Olive Ridley turtles to better understand their behaviors, nesting patterns, and threats.
- Educational Activities: Organizing workshops, seminars, and interactive sessions for students and tourists to learn about marine conservation and biodiversity.
- The festival typically includes activities like guided tours to nesting sites, beach clean-ups, workshops on marine life, and opportunities to witness the release of hatchlings into the sea.
- Through these efforts, the Turtle Festival aims to create a sustainable model for wildlife conservation that benefits both the environment and the local community.

World Sparrow Day

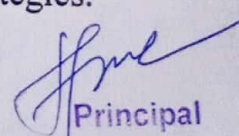

Name of the Event: World Sparrow Day (Poster Awareness)

Date of the Event : 20 March 2024

Student Participated : 80

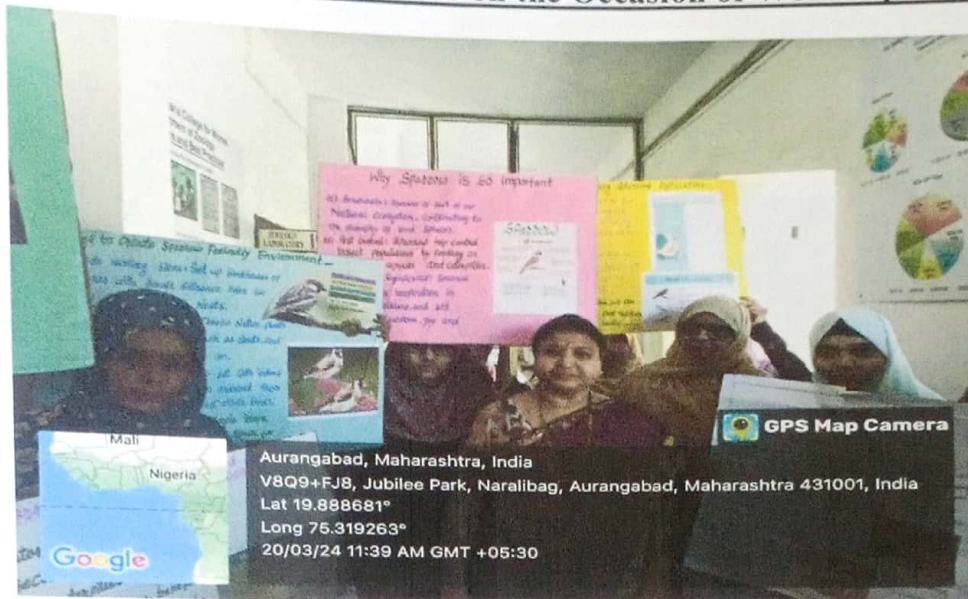

- The day aims to highlight the decreasing sparrow populations in many urban areas, drawing attention to the challenges these birds face, including habitat loss, pollution, and scarcity of food.
- By educating people about the role of sparrows in the ecosystem and the challenges they face, World Sparrow Day promotes a greater understanding and appreciation of these birds.
- The day encourages individuals and communities to engage in conservation efforts such as creating bird-friendly spaces by planting native plants, providing nest boxes, and ensuring food and water availability.
- By focusing on sparrows, the initiative serves as a proxy for urban biodiversity, advocating for urban planning that supports various wildlife.
- World Sparrow Day serves as a call to action for local communities to participate in the conservation of not just sparrows but all urban wildlife.
- Schools, environmental organizations, and bird watchers often organize events, workshops, and informative sessions to engage people in sparrow conservation activities.
- Build a network of like-minded individuals and organizations: Through the celebration of this day, networks of environmentalists, wildlife enthusiasts, and conservationists are strengthened and expanded internationally.
- The day aims to foster a spirit of collaboration among countries and communities globally to share best practices and success stories in sparrow and urban wildlife conservation.
- Encouraging research into sparrow populations, their urban adaptations, and the reasons behind their decline is another crucial aim.
- Citizen science projects often get a boost on World Sparrow Day, helping collect valuable data that can inform conservation strategies.

Time Management

Name of the event : Time Management

(lecture Prof. Vidya Pradhan)

Date of the event : 21st March 2024

Students Participated : 60

Aims

- Enhance the ability to complete tasks and responsibilities in an efficient manner, maximizing output while minimizing the time and resources used.
- Reduce feelings of being overwhelmed by workloads and deadlines by providing a structured approach to handling tasks and responsibilities.
- Facilitate the setting and achieving of both short-term and long-term goals by organizing activities around priorities.
- Improve balance between professional and personal life, ensuring that time is effectively allocated to work, family, leisure, and personal growth.
- Allocate sufficient time for critical thinking and decision-making, which leads to better outcomes in professional and personal endeavors.

Objectives

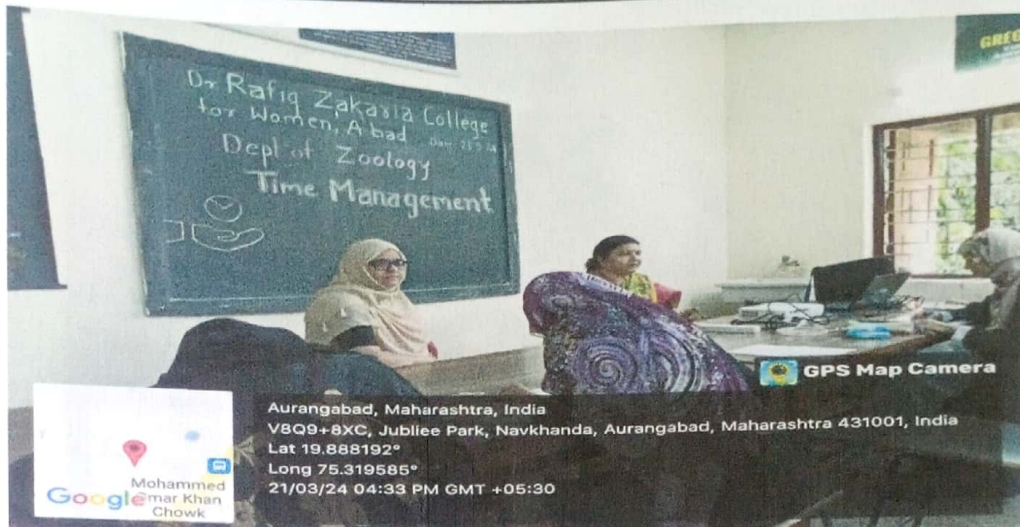

- Establish clear priorities among various tasks and responsibilities, focusing on what is most important and time-sensitive.
- Develop a practical and effective schedule that includes deadlines, work blocks, and breaks to ensure consistent progress on tasks.
- Identify and reduce activities that do not add value to personal or organizational goals, such as excessive meetings, interruptions, or inefficient workflows.
- Allocate specific time slots for tasks to encourage focus and efficiency, and to prevent tasks from expanding unnecessarily to fill available time (Parkinson's Law).
- Where appropriate, delegate tasks to others to better distribute workloads and focus on tasks that require your specific expertise or position.

Stress Management

Name of the event: Stress Management

Date of the event: 22 March 2024

Students Participant : 75

Aim

- The first step in managing stress effectively is to assess the level and sources of your stress:
- These can include physical symptoms (like headaches, muscle tension, or sleep disturbances), emotional symptoms (such as irritability, anxiety, or depression), and behavioral changes (like changes in appetite or procrastination).
- Evaluate Your Load: Look at your commitments and responsibilities, and assess whether they're manageable or if they're too much to handle.
- Once you've assessed your stress, the next step is to identify specific stressors and your reactions to them:
- Pinpoint Stressors: Identify the specific aspects of your life or tasks that cause stress. It might be work, personal relationships, financial pressures, etc.
- Understand Your Responses: Different people react to stress in different ways. Understanding how you respond to stress can help you manage it more effectively. Do you tend to withdraw socially, become aggressive, or freeze up? Recognizing your patterns can help you develop healthier responses.
- After assessing and identifying, you can apply various strategies to manage and reduce stress:
- Time Management: Often, poor time management can lead to stress. Techniques like prioritizing tasks, setting goals, and breaking projects into smaller steps can help manage time more effectively.

Group Discussion

Name of the Event: Group Discussion

(How to Attempt Final Examination)

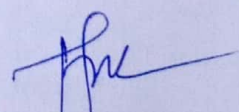

Date of the Event: 22 March 2024

Student participated: 59

Aim

- Group discussions enable participants to share information, experiences, and perspectives. This exchange helps everyone involved to gain a broader understanding of the subject at hand.
- Through the dynamic interaction of different viewpoints, group discussions can foster creativity and lead to the generation of new ideas, solutions, and approaches that might not surface in an individual setting.
- Participants develop and refine key communication skills including speaking, listening, and argumentation. They also enhance other soft skills such as critical thinking, problem-solving, and teamwork.
- In professional or organizational contexts, group discussions can be a democratic way to make decisions. By involving multiple stakeholders, discussions can lead to consensus or informed decision-making that considers diverse inputs.
- Discussions can serve as a platform for airing differences and resolving conflicts. Through structured debate and negotiation, groups can reach amicable solutions.
- Particularly in settings where collective agreement is necessary, discussions are used to explore different perspectives and gradually build consensus among members.
- Group discussions provide a venue for cultural exchange and social interaction, which can enhance mutual understanding and cooperation among diverse groups.
- In educational settings, discussions encourage students to engage actively with material, rather than passively receiving information. This active engagement helps deepen understanding and retention of knowledge.

Visit to Kham River, Begumpura Aurangabad Under “National Conservation of River Program.”

Name of the Event : Visit to Kham River, Begumpura Aurangabad
Under “National Conservation of River
Program.”

Date : 20th May 2023

Place : Kham River, Begumpura, Aurangabad.

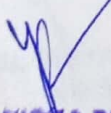

No. of participant : 50.

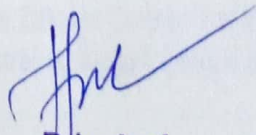

Aims:

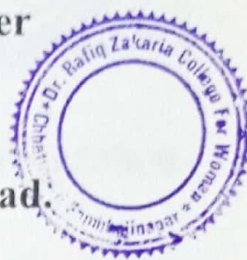

- Ensure the preservation and restoration of river ecosystems, including biodiversity and habitat conservation.
- Promote sustainable use of river resources, including water for agriculture, industry, and communities.
- Improve water quality through pollution reduction and mitigation measures.
- Engage local communities in river conservation efforts, including awareness raising and participatory management approaches.
- Advocate for and support the development of legislation and policies that protect rivers and their ecosystems.

Objectives:

- Protect and enhance the diversity of species and habitats within river ecosystems.
- Reduce pollution inputs into rivers and improve water quality standards to support aquatic life and human health.
- Restore degraded habitats, such as wetlands and riparian zones, to improve ecosystem resilience.
- Promote sustainable development practices that minimize negative impacts on rivers and their ecosystems.

Marathwada Mukti Sangram Diwas: One Day Seminar On “Success Stories Of Marathwada”.

- Dr. B. R. Ambedkar: Constitution in Development of A'bad.

Name of the Event : Marathwada Mukti Sangram Diwas: One Day Seminar On “Success Stories Of Marathwada”.

Date : 17th Sept 2023.

Place : Dr. Rafiq Zakaria College For Women.

No. of participant : 60.

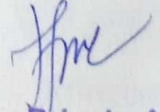

Aim:

The aim of the seminar is to highlight and celebrate the success stories of Marathwada region, particularly focusing on the role of Dr. B. R. Ambedkar's Constitution in the development of Aurangabad. It seeks to educate, inspire, and foster dialogue among stakeholders regarding the practical application of constitutional principles in driving socio-economic growth in the region.

Objectives:

- To showcase and acknowledge successful initiatives, projects, and endeavors that have significantly contributed to the development and progress of Aurangabad and the broader Marathwada region.
- To explore and discuss the fundamental principles enshrined in the Constitution of India, with a special emphasis on Dr. B. R. Ambedkar's contributions, and how these principles have been translated into actionable strategies for development.
- To identify the challenges hindering the development of Aurangabad and Marathwada and to brainstorm actionable solutions grounded in constitutional principles.

“Meri Mati, MeraDesh”: Collection Of Soil From (Habiba Urdu School Students) And Dr. RZCW Students.

Name of the Event : “Meri Mati, MeraDesh”: Collection Of Soil From (Habiba Urdu School Students) And Dr. RZCW Students.

Date : 18th Oct 2023.

Place : Dr. Rafiq Zakaria College For Women.

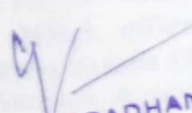

No. of participant : 90.

Aim:

The aim of the initiative "Meri Mati, Mera Desh" is to cultivate a profound sense of attachment, pride, and responsibility towards the nation among students by engaging them in the symbolic act of collecting soil from their respective schools. Through this initiative, the aim is to instill in students a deeper appreciation for their homeland, its cultural heritage, and the intrinsic connection between the land and its people. Additionally, the initiative seeks to foster a sense of unity and belonging among students, transcending barriers of language, culture, and background, while promoting values of patriotism, cultural preservation, and environmental stewardship.

Objective:

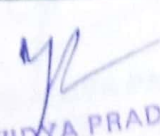

The objective of the initiative "Meri Mati, Mera Desh" is to instill a sense of pride, connection, and responsibility towards the nation among students by collecting soil from their respective schools. This symbolic act aims to imbue students with a deeper appreciation for their homeland and its diverse cultural heritage, fostering a sense of unity and patriotism.

Celebration Of National Unity Day and Celebration of Sardar Vallabhbhai Patel Birthday.

Name of the Event : Celebration Of National Unity Day and Celebration of Sardar Vallabhbhai Patel Birthday.
Date : 31st Oct 2023.
Place : Dr. Rafiq Zakaria College For Women.
No. of participant : 90.

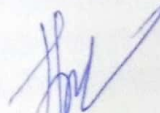

Aim:

The aim of the celebration is twofold: to honor the legacy and contributions of Sardar Vallabhbhai Patel, the Iron Man of India, on his birthday, and to commemorate National Unity Day, which marks the birth anniversary of Sardar Patel. The celebration aims to promote the ideals of unity, integrity, and diversity that were central to Sardar Patel's vision for a united India.

Objectives:

- Pay tribute to Sardar Vallabhbhai Patel for his pivotal role in the Indian freedom struggle and his unparalleled efforts in the integration of princely states into the Indian Union.
- Recognize Sardar Patel's leadership, statesmanship, and unwavering commitment to national unity and integrity.
- Emphasize the importance of unity in diversity and the need for fostering harmony and solidarity among the diverse communities of India.
- Highlight Sardar Patel's vision of a unified India and his tireless efforts to bridge regional, cultural, and linguistic differences.

Inauguration of NSS Special Camp

Name of the Event : Naat Competition.

Date : 19th Jan 2024.

Place : Dr. Rafiq Zakaria College For Women.

No. of Participant : 100.

AIMS:

- Promoting Islamic Art and Culture: The primary aim of organizing a Naat competition is to promote and preserve the rich tradition of Islamic poetry and art, particularly the genre of Naat, which celebrates the Prophet Muhammad (peace be upon him).
- Encouraging Youth Participation: Naat competitions can serve as a platform to encourage young people to engage with religious and cultural activities in a positive and creative way. It allows them to showcase their talents and gain confidence in public speaking and recitation.
- Fostering Unity and Brotherhood: These events bring together people from diverse backgrounds and communities who share a common love for Islamic art and culture. It promotes unity and brotherhood among participants and attendees.
- Educational and Inspirational: Naat competitions provide an opportunity for participants and the audience to learn about the life and teachings of Prophet Muhammad (peace be upon him) through the medium of poetry and recitation. It can be both educational and spiritually uplifting.
- Recognizing Talent and Creativity: Organizing a competition encourages participants to hone their skills in poetry recitation and performance. It provides a platform to recognize and reward talent and creativity in this art form.
- Community Engagement and Involvement: Such events strengthen community ties by involving various members—participants, organizers, sponsors, and attendees—in a collective effort to celebrate and preserve Islamic heritage.

Objectives:

- It sounds like you're interested in objectives related to a NAAT competition. Assuming you're referring to a competition involving Naat recitations (a form

How to Use Waste Materials

Name of the Event

: How to Use Waste Materials.

Date

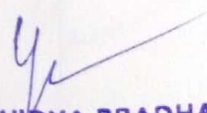

: 20th Jan' 2024

Place

: Dr. Rafiq Zakaria College for Women,
Navkhanda.

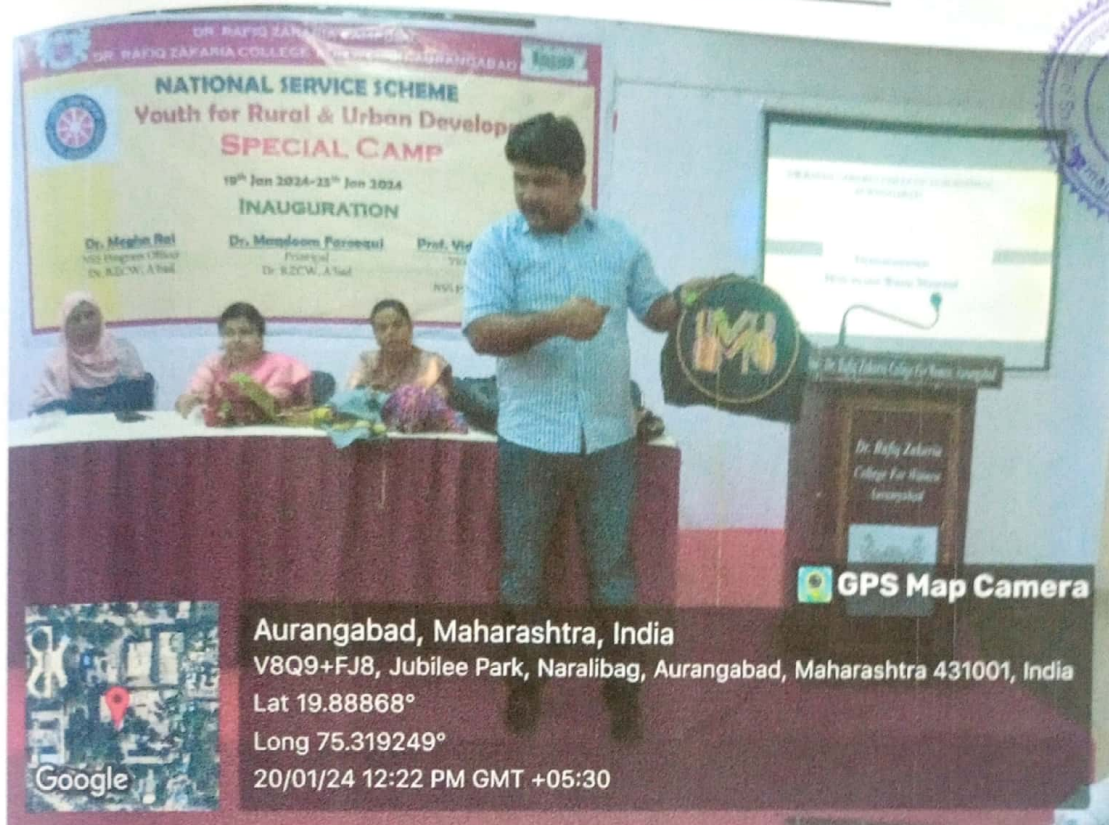

Aims :

- Start by identifying the types of waste materials you have available. This could include paper, cardboard, plastic bottles, glass jars, fabric scraps, wood pieces, metal parts, etc.
- Separate the waste materials into categories based on their type and condition. Clean them if needed to remove dirt or contaminants.
- Consider what you can create with the materials you have. Here are some common ways to use waste materials:
- Use paper, fabric, and other materials for artwork, collage, or DIY crafts.
- Transform old or unused items into something new and useful. For example, turn glass jars into storage containers, or use old tires to create garden planters.
- Use organic waste such as food scraps and yard trimmings to create compost for gardening.
- Use wood, metal, or plastic scraps for small building projects or repairs.
- Turn old clothing or fabric scraps into new items like quilts, bags, or rugs.
- Depending on the type of material and project, you may need to learn specific techniques such as cutting, sewing, gluing, or assembling.
- Be mindful of safety when working with certain materials, especially if they involve sharp edges, toxic substances, or heavy machinery.
- Engage with communities or groups that focus on upcycling or recycling. Share your ideas and learn from others to discover new ways to use waste materials effectively.

Bait Bazi Competition

Name of the Event : Bait Bazi Competition

: 21st Jan 2024.

Date

Place

: Dr. Rafiq Zakaria College For Women.

No. of Participant : 100.

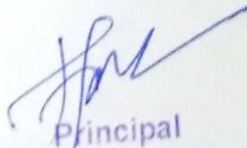

Aim:

- Preserve and promote the art of Urdu poetry and classical literature.
- Encourage linguistic and cultural appreciation among participants.
- Provide a platform for participants to showcase their knowledge of Urdu poetry.
- Foster healthy competition and camaraderie among poetry enthusiasts.
- Celebrate the richness and diversity of Urdu poetic traditions.
- Inspire creativity in composing and reciting poetic verses.
- Educate participants and audience about the history and significance of bait bazi.
- Encourage the use of poetic language and metaphorical expressions.
- Engage younger generations in traditional literary activities.
- Cultivate a deeper understanding of poetic meter, rhyme, and form.

Objectives:

- To encourage participants to explore classical and contemporary Urdu poetry.
- To refine participants' skills in composing and reciting poetic verses.
- To promote teamwork and collaboration among participants in crafting poetic sequences.
- To provide a platform for seasoned poets and novices alike to showcase their talent.
- To encourage the use of literary devices such as similes, metaphors, and symbolism.

Nutritional recipe

Name of the Event : Nutritional recipe

Date : 22nd Jan 2024.

Place : Dr. Rafiq Zakaria College For Women.

No. of Participant : 100.

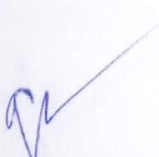

Aims:

- Promote overall health and well-being by offering recipes that are balanced, nutritious, and packed with essential vitamins, minerals, and other nutrients.
- Support weight management and healthy eating habits by providing delicious and satisfying meal options that are low in unhealthy fats, sugars, and processed ingredients.
- Cater to specific dietary needs and preferences, such as vegetarian, vegan, gluten-free, or dairy-free, to accommodate a diverse range of individuals and promote inclusivity.
- Educate individuals about the nutritional benefits of different ingredients used in the recipes, empowering them to make informed choices about their diet and lifestyle.
- Inspire creativity in the kitchen by introducing new flavors, cooking techniques, and ingredient combinations that encourage experimentation and culinary exploration while prioritizing health and nutrition.

Objective:

- To create recipes that provide a balanced combination of macronutrients (carbohydrates, proteins, and fats) to support energy levels, muscle repair, and overall health.

Masjid Cleaning

Name of the Event : Cleaning of Masjid
Date : 23rd Jan' 2024
Place : Dr. Rafiq Zakaria College for Women,
Navkhanda.

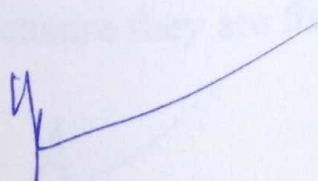

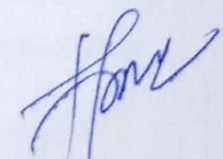

Aims:

- Cleaning the mosque helps uphold its sacred atmosphere, ensuring it remains a place of peace and reverence for worshippers.
- Regular cleaning fosters a clean and hygienic environment, which is crucial for the health and well-being of worshippers and visitors.
- By volunteering to clean the mosque, you contribute to fostering a sense of community pride and ownership among worshippers.
- Cleaning the mosque demonstrates respect for the sacred space and the religious practices of others, fostering a culture of mutual respect and understanding.
- A clean and tidy mosque creates a welcoming atmosphere for worshippers and visitors, encouraging regular attendance and participation in religious activities.
- Engaging in the cleaning rituals of the mosque helps preserve and pass on the traditions and customs associated with maintaining a place of worship in the Islamic faith.

Objectives:

- To serve the local community by maintaining and cleaning the mosque, ensuring it remains a clean and welcoming place for worshippers and visitors alike.

Bird Awareness Programme

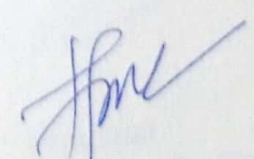

Name of the Event : Bird Awareness
Date : 23rd Jan' 2024
Place : Dr. Rafiq Zakaria College for Women,
Navkhanda.

Aims:

- Increase awareness about the importance of birds in the ecosystem and the need to conserve their habitats, thereby fostering a sense of responsibility towards environmental preservation among participants.
- Raise awareness about the rich biodiversity of bird species in the local area, highlighting their unique characteristics, behaviors, and ecological roles.
- Introduce participants to the hobby of birdwatching as a recreational activity that promotes mindfulness, appreciation of nature, and a deeper connection to the environment.
- Encourage participants to ask questions and engage in discussions about birds, their habitats, and conservation challenges, fostering a spirit of curiosity and inquiry.
- Empower participants to take active roles in bird conservation efforts within their communities, whether through habitat restoration projects, citizen science initiatives, or advocacy campaigns.
- Promote sustainable practices that benefit both birds and humans, such as promoting native plant gardening, reducing plastic pollution, and advocating for policies that protect bird habitats and migration routes.

Department of Mathematics

Date: [22/12/2023]

Time: [11:30]

Venue: Dr. Rafiq Zakaria College For Women, Navkhanda, Aurangabad

Guest Lecturer: Prof. Shaikh Sadik Ali

Professor & Head , Maulana Azad College of Arts Science and commerce Aurangabad

Objective:

To celebrate National Mathematics Day and inspire students to develop an interest in mathematics.

Summary of the Lecture:

Prof. Shaikh Sadik Ali delivered an engaging lecture on "The Beauty of Mathematics." The lecture highlighted the importance of mathematics in our daily lives, its applications in various fields, and the contributions of Indian mathematicians.

Key Highlights:

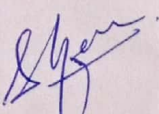

- The lecture emphasized the significance of mathematics in problem-solving and critical thinking.
- Prof. [Guest Lecturer's Name] shared interesting examples of mathematical concepts in nature, art, and architecture.
- The students participated in interactive sessions and quizzes, making the lecture an enjoyable experience.

Student Feedback:

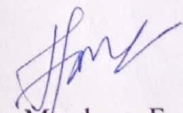

The students appreciated the guest lecturer's enthusiasm and ability to explain complex mathematical concepts in a simple and engaging manner. They found the lecture informative and inspiring.

Conclusion:

The guest lecture on National Mathematics Day was a huge success. It not only celebrated the significance of mathematics but also inspired the students to develop an interest in the subject. We thank Prof. Shaikh Sadik Ali for sharing their expertise and enthusiasm with us.
